---

although the outputs are essentially identical, when streaming dolby atmos audio, the hdmi 1.4a interface supports high dynamic range (hdr) audio at the same time that dolby atmos audio is sent. therefore, you can also stream hdr content on a compatible tv at the same time that youre listening to dolby atmos audio through the hdmi 1.4a output. a stereo or surround-channel mix is sent to the hdmi 1.4a output, while the atmos mix is sent to the hdmi 3.0 interface. therefore, dolby atmos audio is available for all audio sources up to seven speakers (7.1.1), but the dolby atmos mix cannot be split, so if youre using surround-channel audio with dolby atmos, there will be no dolby atmos to 7.1 mix available. however, if youre using stereo audio with dolby atmos, you can access a 7.1 dolby atmos mix. in addition to dolby atmos, dolby vision hdr and dolby vision 2d are also supported. dolby vision is similar to dolby atmos in that it allows for the creation of a complete and accurate dolby vision mix without the additional processing needed to create a dolby atmos mix. the movies listed on this page all feature dolby atmos (or dts:x). if your av equipment supports dolby atmos, it's available to stream on netflix. for more titles, check out the list of dolby atmos titles for dolby cinema on the

---

dolby cinema page. ive only watched about half of the dolby atmos titles available on netflix, and im sure there are far more great titles out there, but these are pretty great. plus, youre only getting a sample for free. in any case, ill be watching more of these and suggest you do too. if you have more netflix dolby atmos titles to share, please add a comment here. (well try to keep this list organized.)
